R BEAVER

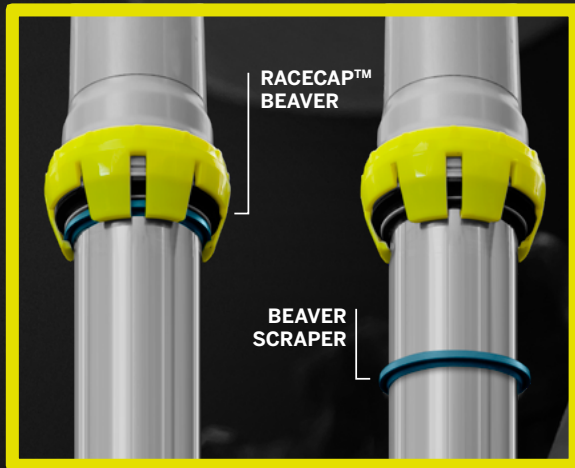

PATENTED

RACECAP™ BEAVER PATENT

Double protection: fork outer tube and hydraulic

The patented shape of the bracelet allows you to quickly activate and deactivate the scraper and also protects the edge of the fork outer tube.

RACECAP™ BEAVER

STANDARD EQUIPMENT

COD. RCB-A

COD. RCB-R

COD. RCB-G

COD. RCB-N

In perfect harmony with the fork

Racecap™ Beaver improves the protection of the fork outer tube from impacts compared to the original bracelet, allowing the protection of the internal hydraulics to also be increased as needed. It is in fact possible to quickly activate or deactivate the scraper based on the conditions.

Available for WP 48mm fork
(no Cone Valve)

R **BEAVER**

MADE
IN ITALY

Totally Made in Italy

Racecap™ Beaver is the result of many years of testing and several evolutionary steps. When passion moves ideas, best results are achieved. Racecap™ products are designed, tested and made in Italy.
